

City Council Agenda Item Staff Report

CITY OF SAN BRUNO

DATE: December 14, 2021

TO: Honorable Mayor and Members of the City Council

FROM: Jovan Grogan, City Manager

PREPARED BY: Qianyu Sun, Director

SUBJECT: Receive Report and Adopt Resolution Accepting Annual Report on

Receipt and Use of Development Impact Fees for the Fiscal Year

Ending June 30, 2021

BACKGROUND:

The City levies seven fees under the terms specified in AB1600. These fees are codified in California Government Code §§ 66000-66025 (Mitigation Fee Act). The Act contains legal requirements for enacting development impact fees, which the City has complied with during the adoption process for these impact fees. Impact fees are different from user fees, in that user fees are charged to customers for services received, for example a Recreation class or a building permit. Impact fees are levied to mitigate cost impacts that development projects have on existing City facilities and infrastructure. By levying an impact fee, the City intends to collect sufficient such fees over time so that the infrastructure impacted may be expanded or enhanced to accommodate the development.

AB1600 requires that an annual report be reviewed by the City Council at a regularly scheduled public meeting. Notice of the time and place of the meeting shall be mailed at least 15 days prior to the meeting to any interested party who files a written request with the local agency and must be made available to the public 15 days prior to the meeting. As of the date this report was finalized, City staff did not receive any request from interested parties.

The annual report attached to the City Council resolution presents the revenues, expenditures, and fund balances for the impact fees. Development Impact Fees subject to AB1600 requirements include: water and sewer capacity charges, and development impact fees for community facilities, public safety, general government, utilities, and transportation.

Development impact fees are separately accounted for from all other City funds and accounts in accordance with accounting standards. Interest earned on each fee is deposited into its designated fund or account and used only for the purpose for which the fee is collected.

DISCUSSION:

AB1600 Annual Reporting Requirements

AB1600 requires that local agencies provide an accounting of impact fees imposed on development projects. Each local agency is required, within 180 days after the last day of each fiscal year, to make available to the public the following information regarding each fund or account (Government Code §§ 66006).

The development impact fees covered by the AB1600 requirements and documented in Attachment 1 to the resolution include the following fees:

	Required Reporting Item	In Report Attachment	Not Applicable to San Bruno this reporting year
1.	Description of the type of fee in the fund;	X	
2.	Amount of the fee;	X	
3.	Beginning and ending balance for the fiscal year;	X	
4.	Amount of fees collected, and interest earned;	X	
5.	Identification of each public improvement on which fees were	X	
	expended and the amount of the expenditure on each		
	improvement;		
6.	Identification of an approximate date by which the construction of		N/A
	a public improvement will commence, if the local agency		
	determines that sufficient funds have been collected to complete		
	financing on an incomplete public improvement;		
7.	Description of each interfund transfer or loan made from the		N/A
	account or fund, including the public improvement on which the		
	loaned funds will be expended, and in the case of an interfund		
	loan, the date on which the loan will be repaid and the rate of		
	interest that the account or fund will receive on the loan; and		
8.	Amount of any refunds made due to inability to expend fees within		N/A
	the required time frame.		

The City levies **Water Capacity** charges on new or expanded connections to the water system. These charges are levied as a condition of development or change in use and are designed to recover the cost of capacity in infrastructure and assets benefitting new development. Approximately \$131,500 of water capacity fees were collected in FY2020-21 from various projects.

The City levies **Sewer Capacity** charges on new or expanded connections to the sewer systems. Approximately \$150,600 of sewer capacity fees were collected in FY2020-21. These charges are levied as a condition of development or change in use and are designed to recover the cost of capacity in infrastructure and assets benefitting new development. The FY2021-22 adopted capital in process (CIP) budget includes water and sewer capital projects that will use water and sewer capacity fees collected as a critical funding source to complete the projects.

Both capacity charges are outlined in the City's master fee schedule updated annually during the budget process. A supplementary Five-Year Project Cost and Funding Summary for all impact fees is included as Attachment 1 to provide further information on each fee.

On May 1, 2019, the City Council adopted five new Development Impact Fees (Municipal Code Ch. 12.260) to fund:

- o Community Facilities,
- o Public Safety,
- o General Government,
- o Transportation, and
- o Utility projects to serve demand created by new development.

Approximately \$7,300 of these five development impact fees were collected in FY2020-21, with details showing in the Attachments to this report. Additional fees are expected to be collected in FY2021-22. During the FY2021-22 budget process, staff developed a projection for additional development impact fee revenue.

AB1600 requires the following items to be reported on annually:

Non-AB1600 Development Related Fees:

Residential developers also paid the fees listed below in fulfilling City requirements that do not fit within the definition of development impact fees subject to AB1600 reporting requirements. However, staff has included them in this report for informational purposes to the Council and the public.

 Park Dedication or In-Lieu fees (Municipal Code Ch. 12.44.140) are imposed on new residential subdivisions of five or more lots. The subdivisions are required to either dedicate land or pay an in-lieu fee for the City to purchase or improve land for parks and recreational purposes. This fee is exempt from the AB1600 requirement. No Park in-lieu Fee was collected in FY 2020-21.

Affordable Housing Fees and Commercial Linkage Fees (Municipal Code Ch. 12.230) are collected on all residential ownership or rental developments of 5 units or more throughout the City. Additionally, an affordable housing commercial linkage fee is assessed on all non-residential development. Residential ownership units may provide below market rate units onsite, off-site, or pay a residential impact fee. This fee is exempt from the AB1600 requirement. No Affordable Housing Fee was collected in FY 2020-21.

FISCAL IMPACT:

The annual AB1600 report is a mandated reporting requirement provided to the City Council for informational purposes only. There is no direct fiscal impact by receiving the report and adopting the resolution.

ENVIRONMENTAL IMPACT:

The action is not a project subject to CEQA. City Council's action is not considered a "Project" per CEQA Guidelines and therefore no further environmental analysis is required.

RECOMMENDATION:

Receive report and adopt resolution accepting the Annual Report on the Receipt and Use of Development Impact Fees for the Year Ended June 30, 2021.

ALTERNATIVES:

The Annual AB1600 report is a mandated reporting requirement for informational purposes only.

ATTACHMENTS:

- 1. Resolution
- 2. Annual Development Impact Fee Revenue and Expenditure Report FY2020-21

RESOLUTION NO. 2021-____

RESOLUTION ACCEPTING ANNUAL REPORT ON RECEIPT AND USE OF DEVELOPMENT IMPACT FEES FOR FISCAL YEAR ENDING JUNE 30, 2021

WHEREAS, pursuant to Section 66000 et seq. of the Government Code, the City is required to prepare and present an annual development impact fees report for all impact fees and charges as defined by the Government Code; and

WHEREAS, the City collects water and wastewater/sewer capacity charges to defray costs from increased capacity demands on water and sewer infrastructure; and

WHEREAS, the City collects five additional development impact fees to fund: community facilities, public safety, general government, transportation, and utility projects to fully or partially offset the costs of public facilities that are needed to serve demand created by that development; and

NOW THEREFORE, BE IT RESOLVED that the City Council of the City of San Bruno:

- receives and accepts the Annual Report on Development Impact Fees for the year ending June 30, 2021; and
- certifies that the City intends to use the fees described above to fund projects that are still planned and needed by the community.

<u></u>-000-

I hereby certify that foregoing Resolution No. 2021-____ was introduced and adopted by the San Bruno City Council at a regular meeting on December 14, 2021 by the following vote:

AYES:
NOES:
ABSENT:
Melissa Thurman, MMC City Clerk

City of San Bruno AB 1600 Development Impact Fees Annual Report for Fiscal Year 2020-21

The attachments following reflect the required reporting for the City of San Bruno's Development Impact Fees for the fiscal year 2020-21 in compliance with California Government Code Sections 66000 – 66006.

Description

Charges collected on new connections or water meter size upgrades contribute to the prior investments by ratepayers in the existing facilities that provide available capacity.
